

APPLICATION

- For high load, medium speed, trunk piston engines (freighters, tankers, generating sets, etc.), running on heavy fuel oils with a high sulphur content.

Suitable for fuels with a maximum sulphur content of 3%.

TECHNICAL PERFORMANCES

- Single grade, high performance, highly alkaline oil with a TBN of 40. Highly tolerant to water and provides protection against foam. Good thermal resistance ensuring protection against corrosion and oxidation.

STANDARDS SPECIFICATIONS

- API CF
- Answer to MAN&BW, CATERPILLAR and DEUTZ's specifications. STORE-WERKSSPOR.

TYPICAL PROPERTIES

Property	Method	Units	Result	
Grade SAE	SAE J300		30	40
Viscosity at 100°C	ASTM D445	cSt	9.3—12.5	12.5 -16.3
Viscosity Index	ASTM D 2270		95	95
Pour Point	ASTM D97	°C	-20	-15
Flash Point COC	ASTM D92	°C	200	220
TBN	ASTM D2896	mg KOH/g	40	40

Characteristics are given as an indication.
